

TERMS OF SERVICE

Effective: November 04, 2025

Last Updated: November 2025

1. Introduction

Welcome to Project NekoMint (“the Platform”), a decentralized NFT minting application operated by Kizura Labs (“we,” “us,” or “our”). By accessing or using this application, you agree to these Terms of Service (“Terms”). These Terms govern your access to the website, minting interface, smart contracts, and any related features. If you do not agree to these Terms, you should refrain from using the Platform.

2. Definitions

“**NFT**” refers to a unique, non-fungible token representing digital ownership of an item on the blockchain.

“**Minting**” refers to the process of generating an NFT using our smart contract.

“**Wallet**” means a user-controlled digital wallet, such as MetaMask or WalletConnect.

“**Smart Contract**” refers to the self-executing code deployed on the Optimism blockchain that governs minting and ownership transfers.

3. Eligibility

By using the Platform, you confirm that you are at least 18 years of age, have full legal capacity to enter into agreements, and are not restricted by applicable digital asset regulations. You must ensure your use of this Platform complies with the laws of your jurisdiction.

4. Wallet Connection

To participate in minting, you must connect your own blockchain wallet. We do not store, access, or have control over your wallet, private keys, or funds. You are fully responsible for safeguarding your wallet and verifying all on-chain transactions before confirming them.

5. Minting Process

Minting on this Platform is fully decentralized and executed directly through smart contracts on the Optimism blockchain.

- There are 10,000 unique NFT cats available for minting.
- Each mint operation generates a random NFT from the collection.
- Once minted, the NFT is permanently recorded on the blockchain.
- The minting process cannot be reversed or refunded after confirmation.

We recommend users verify gas fees, wallet balances, and transaction details before proceeding. All minting activity occurs at the user's own discretion and risk.

6. Fees and Transactions

The initial minting process is free of charge (0 ETH mint fee). However, network gas fees may still apply depending on blockchain congestion. These fees are collected by the network, not by Kizura Labs. We do not control or profit from gas fees.

7. Ownership and Rights

When you mint an NFT, you gain full ownership of the token recorded on the blockchain. However, the underlying artwork, brand, and creative elements remain the intellectual property of **Kizura Labs**.

You may use your NFT for personal display, non-commercial sharing, and participation in community events. Any commercial or promotional use requires prior written consent. The Platform and its creators make no guarantees about future value, resale, or utility.

8. Future Marketplace and Features

Our roadmap includes the potential development of a **community-driven marketplace** and expanded ecosystem where NFTs can be traded or showcased.

These features are not currently active, and their availability depends on project growth, user support, and ecosystem evolution. Your participation helps build the foundation for future expansions.

9. Limitation of Liability

Use of this Platform is at your own risk. We are not responsible for:

- Wallet access loss or compromise
- Failed blockchain transactions
- Smart contract exploits or external hacks
- Market volatility or asset value fluctuation

To the fullest extent permitted by applicable law, Kizura Labs shall not be liable for any direct, indirect, incidental, or consequential damages arising from use of the Platform.

10. Termination or Suspension

We reserve the right to restrict or suspend access for users who engage in malicious activity, exploit the minting system, or attempt to harm the community. Such actions may include bot usage, smart contract abuse, or fraudulent conduct.

11. Changes to Terms

We may revise these Terms from time to time. Any updates will take effect immediately upon publication on the Platform. By continuing to use the Platform after changes are made, you acknowledge and accept the new Terms.

12. Governing Principles

This document follows **international digital asset and blockchain standards**. No specific national law governs this agreement. All disputes shall be resolved in accordance with the principles of fairness, transparency, and decentralized governance.
